Program Info:

The most visible jobs in aviation are pilots, flight attendants, airline mechanics, and air traffic control specialists, but a much larger array of jobs exist in the aviation industry that are not directly related to flying! Do you aspire to work in the aviation industry in one of these jobs?

CAREERS IN AEROSPACE MANAGEMENT

Careers in Aerospace Management include, working with airlines, airports, government, and regulatory agencies.

WHAT WILL I LEARN?

The Aerospace Management program prepares graduates for these diverse job opportunities through a curriculum that emphasizes business, leadership, management, and teamwork, within an aviation context.
